

High School and Middle School Teachers!

Saturday, August 27

9 a.m. to 1 p.m. at

innovEd

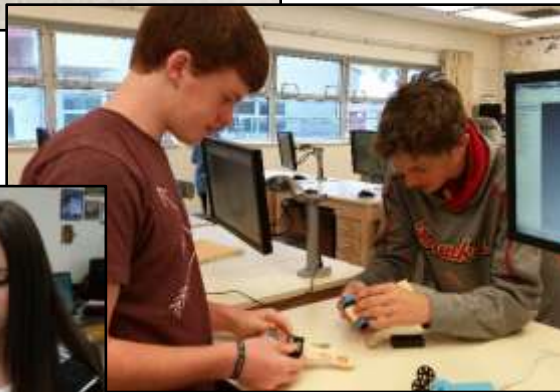

(a STEM academic enrichment center)

7135 N. Chestnut Avenue, Fresno, CA 93720

Don't miss this hands-on workshop.

Students race their vehicles to test their designs.

Learn physics, engineering, math and government applications.

Learn how to design and build model electric vehicles (EVs), how EVs help air quality, and about school solar projects that generate electricity.

Receive a \$150 stipend, plus curriculum materials and 15 car kits for your students.

To register for the Workshop, contact Project Clean Air (661) 847-9756 or

projectcleanairprograms@gmail.com

Coordination and Support Provided by:

San Joaquin Valley Electric Vehicle Partnership
